PROFESSIONAL SUMMARY

BCA (Hons) student at Ganpat University (graduating 2028) building full-stack web applications with Python, FastAPI, PostgreSQL, and React.js. Developed a multi-tenant inventory platform with JWT authentication, role-based access control, and real-time WebSocket alerts. Seeking a Software Developer internship or entry-level role to contribute to backend and full-stack development.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), SQL

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

Backend & Database: FastAPI, PostgreSQL, WebSockets, JWT Authentication

Tools: Git, GitHub, VS Code

Concepts: Object-Oriented Programming, Role-Based Access Control, Responsive Web Design

PROJECTS

FlowStock: Inventory and Order Management Web App (In Development) | Python, FastAPI, React.js, PostgreSQL, Tailwind CSS | GitHub

- Building a full-stack web application to manage inventory, sales orders, purchase orders, shipments, and invoices, with a FastAPI backend, PostgreSQL database, and React.js + Tailwind CSS frontend.
- Implemented JWT authentication and role-based access control for four roles: admin, warehouse manager, sales rep, and viewer.
- Built multi-tenant support so each organization can access only its own data.
- Added real-time stock alerts and order-update notifications using WebSockets.
- Organized the backend into API, service, and data-access layers for cleaner, easier-to-maintain code.

EDUCATION

Ganpat University, Gujarat, India — Expected 2028

Bachelor of Computer Applications (BCA Hons)

CERTIFICATIONS

- Data Science Essentials with Python, Cisco Networking Academy (April 2026)
- Introduction to Data Science, Cisco Networking Academy (February 2026)

LANGUAGES

English, Hindi, Gujarati
